

SYDNEY INTERNATIONAL CONVENTION CENTRE

Hydro Construction Products have been in the business of providing world class water management products and solutions to Australia and New Zealand since 2003.

Our stylish range of Hydro Supreme Stainless Steel Edge & Cast Iron Edge drainage products extensively covers both commercial and residential applications for indoor and outdoor use.

As well as being highly aesthetically pleasing and functional, Hydro Stainless grating products are of high quality grade 304 and 316 stainless steel. Thanks to superior water flow techniques and design characteristics, this wedge wire grating, ensures effective water flow is easily diverted through the drain. This keeps debris larger than the aperture of the grating above the surface of the drain, letting the water drain free into the water systems.

ICC Sydney is at the heart of its very own Sydney harbour waterfront precinct. Set amongst restaurants, retail, and a vibrant public domain on Darling Harbour, yet only a moment's walk to Australia's largest CBD, surrounding university and cultural quarters.

Hydro worked with Hanna Bros. on the Lend Lease project in the supply of linear drainage systems with both stainless steel architectural grating, to the public recreation areas and high flow ductile iron grating to the surrounding road infrastructure.

- Poolside/Landscaping Areas
- Bathrooms & Showers
- Commercial Kitchens
- Chemical & Pharmaceutical Plants
- Food Processing Areas
- Wineries & Brewing Bottling Plants
- Abattoirs
- Hotels, Restaurants & Cafes
- Sport & Leisure Facilities
- Residential
- Manufactured to suit specifications
- Corrosion resistance
- High flow rate
- Innovative design for easy installation
